Infant Plan

Freight House Early Learning & Care Inc. provides every child with a nurturing learning environment. We are inclusive to all children and ensure that all children regardless of age (18 months - 6 years) have continued learning opportunities in their play environment and that all opportunities are age appropriate. These experiences aid the child's ability for self-discovery and problem solving while providing a variety of learning opportunities for building strengths in all levels of development, social, emotional, cognitive and physical, in accordance with current emergent curriculum practices.

Our role as Early Childhood Educators is to provide enriched experiences, inclusive of all ages, and materials that reflect the child's abilities to safely explore. Respectful individualized care promotes self confidence in the child, allowing them to interact with their environment.

In addition, staff provide purposeful activities to promote learning and discovery, based on critical observation of the children at play, perceived interests or staff initiated ideas. Staff are trained in Early Childhood Development and look for repetition in the children's play. Ideas are tried out to see interest and ability. Activities are introduced as self-discovery in the environment or Early Childhood Educator guided for closer supervision. Staff reflect on the child's responses to activities and provide additions in the environment or gain ideas for future linked activities. Documentation of ongoing and emerging interests can be collected in various forms. Verbal discussion of the children's reoccurring play, can lead to immediate (in the moment) additions to the play. Staff also write observations of the child's reactions and actions along with what was added to the play, for future idea formation and to share with other staff members to plan for related activities.

Health and Medication

Upon enrolment all families are required to fill out a health questionnaire which will aid the centre in receiving additional support in caring for their child if required. If your child has any health concerns such as; asthma, allergies, heart murmur, seizures just to name a few the parent will be required to fill out an application to URIS who intern will put a health care plan in place for your child and train the staff accordingly.

*The centre has an **Anaphylaxis Policy** which outlines procedures for staff, parents and children for a **child with life threatening allergies**.*

Illness is one of the greatest hardships for parents of young children in group care. Plan ahead for times when your child might become ill. Have an alternate caregiver for your child.

The public health authorities have illness and contagious guidelines, which we are required to follow.

A child will not be allowed to attend the centre if he/she has:

- Pink Eye with yellow or white discharge
- Impetigo
- Ringworm/Scabies
- A contagious disease such as Measles, or Mumps
- A rash (unless it has been diagnosed as non-contagious by a doctor)
- Strep Throat
- Head Lice
- Repeated Diarrhea and or vomiting accompanied by other symptoms (more than three bouts in 24 hours)

Children with a fever, runny nose or cough will be monitored and parents will be informed of their child's condition. Any child who becomes so ill, irritable or listless to participate in activities will be offered a resting spot. If a child is ill, parents will be contacted and asked that they pick up the child as soon as possible. Under some circumstances the staff may give the parent a form to be filled out by a doctor. This form has to be filled out before the child can return to the centre. Doctor's forms are to confirm the illness the child has and necessary to ensure the centre is aware of all contagious illnesses that may be present. All parents will be notified of any contagious illnesses present at the centre.

Children should not attend the centre if they are ill and cannot participate in the daily activities. Parents are asked to advise the centre immediately of the kind of illness. All serious illnesses are reported, as per Child Care Regulations.

Only prescription medication will be administered. Medication must be sent to the centre in the original container given by the pharmacist and must have a current date and the child's name on the prescription label. Parents must fill out a medication form before any medication can be administered. Staff will administer the medication according to the prescription label.

The Centre and staff will not accept any responsibility for medication that is not administered.

Escort

Parents are responsible for dropping off and picking up their child. However, if you cannot be at the centre before closing, you must make arrangements to have someone else pick up your child. **Staff are only authorized to allow the child to leave with someone they have been notified about or are alternates on your pick up list.** Give staff the alternate's name and a brief description. Staff will ask any stranger for their name and I.D. **Please keep Centre staff well informed of anyone (new person) picking up your child or they will not be released.** Under no circumstances will a child be sent home unescorted in a taxi. All children must be escorted to the main playroom in the morning; otherwise we cannot be responsible for them. Children cannot be picked up by anyone under the age of 16.

Transportation Policy

Parents are responsible for drop-off and pick-up of their child(ren).

For field trips, the centre will rent a chartered bus or at times take Public Transit both require parental consent.

Safety Charter

The center has adopted a safety charter which outlines evacuation procedures, conduct, protocol and safety guidelines for the staff and children for a variety of emergency situations.

A copy is available for parents to read if they are interested, please ask in the office.

The centre participates in monthly evacuation practice drills, if you are interested in participating let someone in the office know.

Curriculum Statement

Freight House Early Learning & Care Inc. is an early childhood education program which provides every child with a caring, nurturing and responsive learning environment. We design and maintain an environment that fosters creativity, playfulness, respect, opportunities, enthusiasm and a sense of belonging, wonder and calm. We encourage all children to accept and embrace the diversity of one another and our community. We build upon the uniqueness of every child in offering opportunity for growth and development. We provide a variety of learning opportunities that build on strengths, all levels of development, opportunities for discovery, and current developmental practices. We open our doors to our families to join in the learning processes and to foster community.

We embrace inclusion and celebrate the diversity of one another as a means to fostering the well-being of every child. We accept that every child is unique and shares with others their uniqueness through expression and play. As part of our annual training plan we are committed to learning more about all aspects of every child's development to foster inclusive programming.

We believe that children learn through play and encourage choice, respect and a positive feeling about oneself. Play enables children to make sense of their world. It allows children to explore, use thinking skills, problem solve, and language expression. For example children play with blocks, paint a picture, and play make believe to invent, create, duplicate, explore, try new ideas, and problem solve. We support learning by listening, observing, encouraging and additional experiences. We build on their play through language that identifies and encourages concept development. The environment hosts a variety equipment that supports learning at all developmental levels, some examples are: puzzles with variety of textures, size and number of puzzle pieces and difficulty, creative supplies such as scissors, crayons or pencils that allow for different grasps, gym equipment that allows for a variety of climbing and balancing skills. Staff are gentle, kind, caring, nurturing and respectful so that their environment will foster the

development of a positive sense of self and belonging. Experiences in social, emotional, spiritual, physical and cognitive learning are available for all children throughout each day. We foster opportunities so every child has fun and shares the excitement of learning and discovery with staff and peers. We strategize and plan as a team to ensure that each child's development is being fostered in all areas. We support and guide the children in their play through conversation and positive guidance. We use conversation as a tool to support relationships and understanding for one another.

We follow the principles of emergent curriculum to meet the learning needs of each child. Through observation and reflection staff offer a strength based approach to achieving developmental gains both through spontaneous and planned experiences. Staff recognize skill and engage children to advance their knowledge through further experiences. The staff maintain and add to the environment a variety of equipment and materials. Equipment is available to enhance physical, cognitive, emotional and social skills. Staff also reflect on the practices of Reggio Emilia to guide their environment and learning strategies. The *Reggio Emilia* Approach is an educational philosophy focused on preschool and primary education. It focuses on the principles of respect, responsibility, and community through exploration and discovery in a supportive and enriching environment based on the interests of the children. We share with the families each child's development and experiences through open dialogue, photos, memos, documentation and a child's creative expressions. Ongoing training and professional development is encouraged for all staff to remain current and strong in their teaching principles.

We respect the child's need for play. Our schedule is flexible allowing children to make choices that fit their needs and not the needs of others. Routines are kept to a minimum and are made fun and educational. Children are encouraged in a fun and positive way to engage in all developmental areas.

Freight House Early Learning & Care Inc. is a community based program. We consistently support the needs of our families and the community through respect, flexibility, inclusion and cultural acceptance. Families are valued and respected as enrichment to our environment. We look for opportunities to share individual cultural differences through music, food, sharing information and allowing families to share in our everyday experiences.

Freight House Early Learning & Care Inc. has adopted the Best Practices Model as our program guide (a manual developed by The Province of Manitoba which guides our program development-copy is available in the office). We use Early Childhood Environmental Rating Scale as a guiding tool for environment, health, safety and positive interactions (a document used by the Province of Manitoba to evaluate and rate the staff interactions, the environment, health procedures and safety procedures-copy available in the office). Employees engage in ongoing professional development to ensure that they remain focused and skilled in the delivery of all learning experiences.

Incidents

Our Centre strives to provide a safe, clean environment for children to play in. The staff are alert to potential hazards and takes steps to ensure the utmost safety. However, knowing the nature of children, and that accidents do happen, we have established the following policy:

- All staff are trained in Emergency First Aid and Infant/Child CPR.
- Children will be transported to Children's Hospital in the event of an emergency.
- Parents must pay for the total cost of the Ambulance.
- Parents will be notified immediately if a child is taken to hospital. Parents will be requested to meet the staff and child at the hospital.
- Parents are advised to expect the usual amounts of bumps, scrapes, bruises, and other minor accidents as a result of children coming into contact with each other and their surroundings.
- All incidents that reach staff's attention will be recorded for parent notification. Parents will be notified when they come to pick up their child.
- Parents are advised that not all incidents reach staff attention. Many times children will fall or bump into something and receive a bruise or a scrape, then get up and keep playing and not tell anyone what happened.

Emergency Closure Plan

1. Manitoba winter storms can be wicked and unexpected. In the event of an overnight storm, assume the centre is open. The rationale for this is that no subsidies or grants are paid by the Province on any child's behalf when centres are closed for days other than statutory holidays.
2. Staff are expected to try and make it in to work in the safest way possible. The Board of Directors does not want any staff members to put themselves in a dangerous position to get to work. Assume that the centre parking lots won't be cleared and the best way to get to work will be by bus. If the buses are not running, you will be advised of this either by listening to the radio or calling Transit. No exceptions will be made for staff living outside the city limits.
3. Parents should call the centre before bringing their children in. This is to make sure the centre is open and accepting children.
4. The first staff person in will handle the phones and let parents know that the centre cannot take any children until two staff members are in. This is for safety reasons; should anything happen to one child then one staff can be with the emergency and one with the remaining children. In the event that one staff arrives from each centre only one centre will open and the closed centre will be posted CLOSED on the door. The children will then proceed to the other centre. Once sufficient staff have arrived both centres will open again.
5. Parents maybe be asked to be understanding in giving priority of care based on ratios of children to staff as listed below.
6. No children are to be accepted into care until two staff members are in. Ratios on these days are 2:8, 3:16, 4:24, etc., thus allowing for one staff to be available to deal with phones and emergencies.
7. No children will be accepted into care past noon or over ratio to the number of staff in.
8. Staff are expected to notify the centre of their status so parents can be kept well informed.
9. The answering machine is to be left on every night and weekends.
10. Parents will be asked by staff members on that day to pick up their children by 4:00 P.M. If it appears that the storm is intensifying during the day this time can be changed. It will be the decision of the Director or senior staff member on duty to determine any change to closing time. If the time is changed, staff will notify all parents.
11. Staff will make sure that all parents who leave their children at the centre on stormy days leave a telephone number where they can be reached or the phone number of an alternate who can be responsible for child pick-up that day.
12. Staff are advised to be tolerant of stragglers on stormy days. Parents will be advised to keep the centre posted as to when they anticipate being able to pick up their child by calling the centre and leaving a message as to what time they are leaving work or school.
13. If at any time the centre has no water, heat or no electricity, the centre will automatically be considered closed until service can be restored.

Positive Guidance Techniques

The Early Childhood Educators at Freight House Early Learning & Care Inc. practice "**Positive Guidance Techniques.**" This is accomplished through **consistency**, **positive language**, **modeling**, and by **having realistic expectations** which take into account a child's individual developmental capacity. Parents will be kept informed about concerns with behavior so both the family and the centre can work together to provide a positive solution and outcome.

Manitoba Regulation 27(1):

A licensee "shall not permit, practise or inflict any form of physical punishment or verbal or emotional abuse upon, or the denial of physical necessities to, any child in attendance at the Child Care Centre."

The staff will use the following methods of directing and redirecting behavior

1. Redirecting, suggesting an alternative activity or space.
2. Using positive statements – eg. Sit on the chair please instead of get down
3. Choices and logical consequences – lose opportunities if unable to follow guidelines.
4. Reasoning
5. Providing positive feedback
6. An age appropriate removal may be used as **a last resort** to ensure the safety of the child and others.
7. Consideration for a child's individual learning capacity and developmental level is always practiced.

All situations will be treated with the utmost respect for the child, helping them to learn through experiences. The child will not be judged but rather guided and encouraged to learn and understand from each situation. It is important that everyone at the centre *feel safe*, and the parents feel comfortable knowing their children are safe in the centre.

*Since most of us
spend our lives
doing ordinary
tasks, the most
important thing is
to carry them out
extraordinarily
well.*

Code of Conduct

Freight House Early Learning & Care Inc. strives to provide a safe, caring learning environment for staff, children and families.

Our Mission Statement is: To provide Quality Early Childhood Education and Care; inclusive to all children, in a nurturing, family centred, community based environment where current strategies for child development are practiced.

We follow these Guiding Principles:

BE RESPONSIBLE We are responsible for our actions and words. We treat others as we want to be treated. When we make a mistake, we make amends rather than excuses.

BE RESPECTFUL We are respectful of ourselves and other people. We are respectful of the ideas and feelings of others. We are respectful of the environment, equipment and materials.

- Establishing consistent, yet flexible schedules and routines that help children gain trust, security and self-control

We recognize the varying developmental capabilities of children and understand that it is normal for children to display inappropriate behaviour at times for a variety of reasons. The developmental capabilities of each child will always be considered when determining both expectations for appropriate behaviour and consequences for inappropriate behaviour.

The following behaviours are unacceptable and will not be tolerated:

- All forms of bullying (physical, verbal, emotional, social or cyber-bullying including comments, actions or visual displays that are intentional, hurtful and repetitive. Individuals found breaching the Code of Conduct or for displaying any form of inappropriate behaviour as outlined in this Code will be subject to disciplinary action. The disciplinary action and resulting consequences will depend on the severity, the nature, the circumstances, and the frequency surrounding the inappropriate behaviour. The Facility recognizes the importance of ensuring any consequences are pre-planned, fair, consistent and, in the case of children, based on the level of a child's development. We also recognize that consequences should be an opportunity to learn, not only one of discipline. In keeping with this, we will ensure, whenever practicable, that any resulting consequences are based on discussion and a cooperative approach and that they provide opportunities for the person to change his/her behaviour.

In the case of Staff*, Practicum students, volunteers or other adults associated with our Facility, typical steps will include:

- Reminding individuals of expectations and limits
- Giving a verbal or written warning outlining concerns and the consequences if the inappropriate behaviour continues

In the case of children participating in our program, typical steps will include:
