### **Anaphylaxis Policy**

As required by the Ministers of Education, Training & Youth, Family Services & Housing, and Health, our facility has developed a child care policy for life threatening allergies. Anaphylaxis is a severe allergic reaction that can result in death due to airway obstruction or a severe drop in blood pressure. The policy has been developed to ensure the safety of all children attending the facility.

At the time of registration (**and annually**), all families will be asked to complete a medical questionnaire for their child. Once completed the questionnaire will be assessed to determine the need to implement the Anaphylaxis Policy.
